1. ORGANIZATIONAL PROFILE

102-1 Name of the organization  p. 3
Casella Waste Systems, Inc

102-2 Activities, brands, products, services  
Primary brands = Zero-Sort® Recycling, Casella Organics®, earthlife®, SEED®, ACR™ Recycle Better™, and Beyond the Bin™

102-3 Location of headquarters  p. 3
Rutland, VT

102-4 Location of operations  p. 3
Northeastern United States (VT, NH, ME, MA, CT, NY, PA)

102-5 Ownership and legal form  
Corporation

102-6 Markets served  
Sectors served include residential, commercial, industrial, institutional, retail, municipal, and agricultural. Our customers include those who generate waste and those who purchase our products.

102-7 Scale of organization  p. 3
# of employees: 2,964 (as of 12/31/2021)  
Net sales: Revenue: $889.2 million (2021)  
Quantity of products or services provided: 6.6 million tons managed (2021)  
6/30/2022 figures are available on page 2 of 2020 Sustainability Report

102-8 Information on employees & other workers  p. 12-17
Total employees: 3,129 (as of 6/2022)  
By employment contract: 81% hourly, 19% salary (as of 3/2022)  
By gender: 19% female (3/2022)  
By race: 16% non-white (3/2022)  
*See DE&I discussion on p13

102-9 Supply chain  
Casella’s primary areas of purchasing include heavy-duty collection vehicles, recycling equipment, and landfill construction materials. The company’s environmental impact derives primarily from the types and quantities of residuals we receive from our customers, and the degree to which these materials are properly sorted and characterized for recycling or disposal.

102-10 Significant changes to the organization and its supply chain  
Since issuing our 2020 sustainability report, the Company has completed strategic acquisitions that have included the expansion of our presence into Connecticut and the integration of other strategic assets in the northeastern U.S. The company also decommissioned a small landfill gas to energy facility in Maine.

02-12 External initiatives  
External economic, environmental, or social charters, principles, or other initiatives to which we subscribe or which we endorse: EPA America Recycles Pledge, New Hampshire Clean Energy Principles

102-13 Membership of associations  Appendix E

2. STRATEGY

102-14 Statement of senior decision maker  p. 5

3. ETHICS & INTEGRITY

102-16 Values, standards, principles, norms  pp. 12-17  
Appendix C  
Core Values, Our people, Environmental policy

4. GOVERNANCE

102-18 Governance structure  Appendix D

5. STAKEHOLDER ENGAGEMENT

102-40 List of stakeholder groups  p. 4

102-41 Collective bargaining agreements  5.2% as of 12/31/2021

102-42 Identifying and selecting stakeholders  Appendix B

102-43 Approach to stakeholder engagement  Appendix B

102-44 Key topics and concerns raised  p. 4

6. REPORTING PRACTICE

102-45 Entities included in consolidated financial statements  This information can be found in our 2021 Form 10-K

102-46 Defining report content and topic boundaries  p. 4, Appendix A

102-47 List of material topics  p. 4

102-48 Restatements of information  None.

102-49 Changes in reporting  None.
303: WATER & EFFLUENTS, 2018

303-1 Interactions with water as a shared resource
The company’s water consumption is low, primarily consisting of use for sanitation and drinking water, with limited amounts for irrigation, dust suppression, and vehicle washing. Recycled water is utilized where possible for dust suppression. The largest source of wastewater is leachate collected from active landfill facilities. Landfills work to minimize leachate production through operational best management practices, and dispose of collected leachate at permitted disposal facilities.

303-2 Management of water discharge-related impacts
Wastewater streams delivered to permitted wastewater treatment facilities are sampled and tested in accordance with state or facility-specific permits. Onsite treated flows are managed in accordance with approved NPDES discharge permits.

303-4 Water discharge by quality and destination
123.1 million gallons of landfill leachate was directed to wastewater treatment plants in 2021. 7.5 million gallons of landfill leachate was treated and discharged under NPDES permits. Minimal quantities of sanitary wastewater were treated and discharged through permitted septic systems.

305: EMISSIONS, 2016

305-1 Direct (Scope 1) GHG emissions
Scorecard
Scope 1 GHG Emissions: 546,100 MTCO2e

305-2 Energy Indirect (Scope 2) GHG emissions
Scorecard
Scope 2 GHG Emissions: 5,080 MTCO2e

404-1 Average hours of training per year per employee
Continuous improvement is one of Casella's six Core Values and the company supports a culture of lifelong learning. Internal training programs are focused on safety, compliance, operations, leadership, technology, and more. The company also supports employees in developing their skills externally, via college courses and professional certifications. Apprentices receive on average 218 hours of skilled job training. In the coming years, the company plans to establish a Learning Management System that will enable more detailed tracking of training hours, while giving employees added agency in advancing their growth and development.

404-2 Programs for upgrading employee skills and transition assistance programs
Casella's employee training programs are discussed on page 15 of this report. Our commercial driver's license (CDL) training program is an important example of transition assistance. Fleet automation makes our operations safer and more efficient, but also reduces our need for helpers. The CDL training program provides a pathway for helpers to transition to new roles as drivers.
404-3 Percentage of employees receiving regular performance and career development reviews
p. 12-15
Annual performance reviews are conducted at all levels of the company, along with ongoing coaching and development. In 2021 and 2022, we have implemented a Performance Management System for 500 Salary employees to set yearly goals and perform Self and Management Evaluations and Development Plans. In 2022, we have purchased a Learning Management System to deliver and track 55 Compliance and DE&I training sessions to 500 end users.

405: DIVERSITY & EQUAL OPPORTUNITY, 2016

405-1 Diversity of governance and workforce by age, gender, race p. 13

413: LOCAL COMMUNITIES, 2016

413-1 Operations with local community engagement, impact assessments, and development programs
p. 34-39, Scorecard
100% of our operations have implemented some level of community engagement activity. We have established quantitative targets for employee volunteering and community giving and are continuing to formalize our programs and policies in support of achieving those goals.
